

## NIHR Integrated Academic Training in Anaesthesia: Contacts and resources

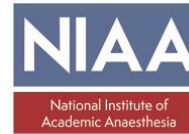

This table provides a list of local contacts for NIHR Integrated Academic Training (IAT) programme positions in England, both Academic Clinical Fellowships (ACFs) and Clinical Lectureships (CLs). The contacts are either leads for anaesthesia or IAT programme directors. Links are provided within the table to the IAT pages of Deaneries and Medical Schools where they are available. Post are allocated to Medical Schools competitively so their availability may vary from year to year. If you are interested in applying for an IAT post, you are strongly advised to contact the anaesthetic lead or programme director for IAT in the region you are wishing to apply in. Jobs may be advertised at any time so you are advised to subscribe to the relevant [Oriel](#) watchlist.
